# Sparta Overview

Founded in 1994, Sparta Systems is the world's premier provider of cloud and on-premise quality management system (QMS) software. This software helps companies to automate quality management and regulatory compliance processes, and extend those same processes to external partners. The company brings over two decades of experience, regulatory expertise, and proven implementation methodologies. Sparta's customer base includes some of the world's largest pharmaceutical, biotechnology, medical device, consumer products, discrete manufacturing, and food and beverage companies. These companies rely on Sparta to create better, safer products, and to lower risks, increase efficiency, and achieve compliance.

REUTERS – March 21, 2013

# Our Mission

## Igniting a culture of quality.

Quality is important. But, managing it consistently is not a simple matter. As companies grow and become more complex, they're no longer able to oversee quality via paper, fax, email, and phone. That's where Sparta comes in.

Our mission is to bring you integrated QMS platforms that automate all your processes in one place, and help ignite a culture of quality within your company. With consistent processes, you can create better, safer products, lower risks, increase efficiency, and achieve compliance.

# Executive Leadership

## **Dana Jones, CEO**

Dana Jones is Chief Executive Officer and a member of the board of directors for Sparta Systems. In this role, she leads the organization and has responsibility for all aspects of the company. Jones is an accomplished software executive with decades of experience leading and growing cloud-based global businesses. Prior to joining Sparta in April 2018, Dana served as CEO of Active Network, the leader in activity and event management software.

## **Vinit Doshi, COO**

Vinit Doshi is an accomplished technology executive with a solid track record of managing a portfolio of world-class enterprise software applications. Vinit brings nearly 20 years of general management, R&D, product management, marketing, sales support and cloud transformation experience to his current position as Sparta Systems Chief Operating Officer. As the Chief Operating Officer, Vinit is responsible for the Strategy, Research & Development, Product Management and Marketing for the company.

# QMS Software Platforms

## TrackWise QMS Software

TrackWise brings all of your quality processes together in one place. Become efficient and achieve compliance by integrating related events and actions, automating workflow, and consolidating information across quality systems into one single source of truth.

# Customer Testimonials

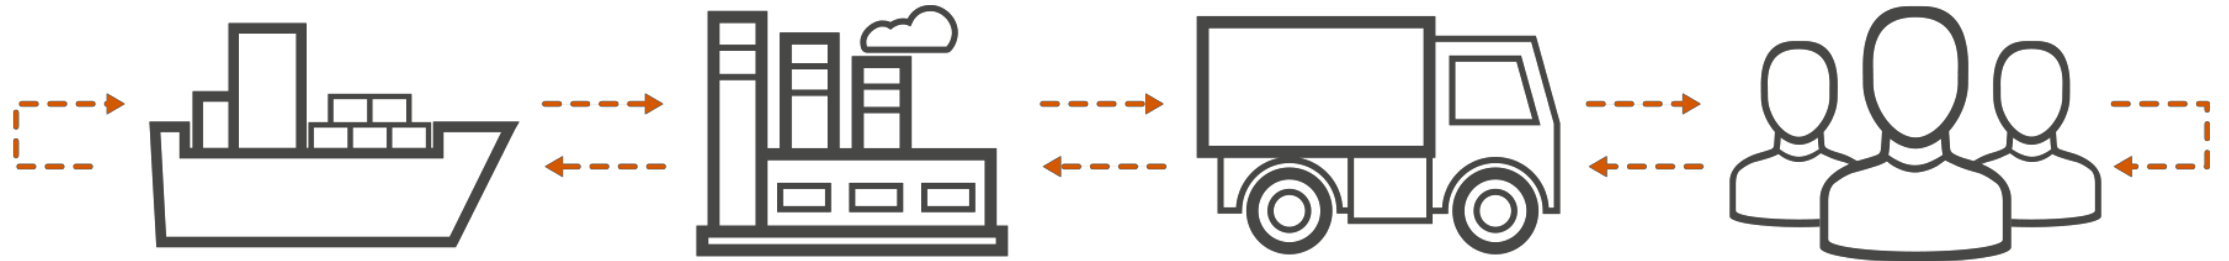

“They understood what we were looking for right away and were able to implement and validate our CAPA application within 30 days. We are pleased that we found them, especially since we were able to use all the functionality we needed all within the Salesforce AppCloud.”

**Suzan O’Leary**  
Project Manager,  
**Abiomed, Inc.**

“The benefits we’ve seen from TrackWise have been tremendous from an efficiency perspective...We have processes that used to take us two weeks to pull all of the information together across the globe. Now by automating that through TrackWise we’ve been able to tie that down in the push of a button to 30 seconds.

**Tami Frederick**  
Global Director of Corporate Quality Systems  
**Perrigo**

# The Quality Business Network

The Quality Business Network is the ecosystem of quality management stakeholders (manufacturers, contract manufacturers, suppliers) who leverage technology to connect quality management systems, processes and data in order to facilitate increased collaboration and information sharing and deliver comprehensive visibility of issues from raw material through manufacturing to customer experience and back. The value of the network grows with each additional participant.
